

# My Body Gives Me Signals 1.2

Our bodies tell us how we feel before our minds do.  
Let's get to know these signals so we can respond  
in a kind and helpful way.

## 2. Who Can Help Me?

It's okay to turn to supportive people.

A family member 

A trusted adult 

A friend 

Someone I talk to 

A teacher 

A counselor 

How strong is this support right now?

## Important Reminder

My body is not trying to hurt me —  
it's trying to protect me.

The more I get to know it, the more  
I can care for it and make better choices.
