

6.1 An Intrusive Thought Is Only a Thought

We identify a thought that comes without invitation and learn to remember that it does not define me.

What intrusive thought came to me?

1

How do I feel when it happens?

2

What does my body feel?

3

What do I want to do right away?

4

What can remind me that this is only a thought and not a fact?

5

A sentence that helps me

6

IMPORTANT REMINDER:

An intrusive thought can feel very strong —
but it is still only a thought.
