

9.6 Returning to Routine Gradually

I am building a safe gradual return and a gentle path back to the things that matter to me, at my own pace.

1. What is important for me to return to?

2. My first small step

3. The next step after that

4. Who can help me along the way?

5. What will I do if things feel hard?

6. How will I celebrate small progress?

Returning gradually is real progress.
